AMENDMENT

Commissioner for Patents
Washington, D.C. 20231

Sir:

The following is presented in response to the Advisory Action mailed October 29, 2002, and the final Office Action of July 11, 2002, in connection with the above-captioned patent application, an RCE with a Request for Suspension having been filed November 12, 2002.

In the Specification:

Please amend paragraphs [0020] and [0023] as follows:

[0020] A motor vehicle roof (see Figure 1), in a fixed roof skin 10, has a roof opening 11 which extends from near the front edge 12 of the roof skin 10 to near the rear edge 13 of the roof skin 10. On the bottom of the roof skin 10, a frame (not shown) is attached which, on either side of the roof opening 11, has guide rails G in which the front cover 14 and the rear cover 15 are supported to be able to move. Furthermore, the two covers 14, 15 are each provided with a swing-in mechanism S, which are only schematically represented in the drawings by which the front cover 14 and the rear cover 15 may be lowered at their front
